

Dear Ms Toward

Re: Changes to Terms and Conditions of employment and related employment policies of support staff in community schools

Following the recent distribution by Notts County Council of letters containing incorrect information to support staff, UNISON must ask for the letters to be re-issued with the correct information contained within the table.

We are not able to accept that the revised information will be e-mailed to Headteachers and verbally relayed to all workers as our recent experiences show that this cannot be a satisfactory remedy.

We are also very concerned that there is no will to give workers in schools a 90 day notice period to vary their terms and conditions.

Please note that UNISON continues to strongly oppose these imposed changes and will advise our members accordingly.
