

# **MASSIVE Clearance Sale**

**at County Hall**

**All Public Services  
Must GO!**

**Further Information - Mrs Kay Cutts Leader of the Council  
Tel: 08449 808080**

# Yes folks, its the great Public Services Giveaway!

Our glorious leader, Mrs Kay Cutts, wants to decimate our services as quickly as possible (well certainly before the next Council Election) and therefore everything must go. So if you're a private speculator come on in and buy a really well run service for next to nothing.

Everything must be privatised, nothing must remain public. Any offers will almost certainly be accepted.

Here's just some of the fantastic bargains to be had:-

**Elderly Persons Homes** - Yes we've got some very nice new buildings in prime locations so there's ample opportunity to either continue with a very well run business (of course its becomes a business when its privatised) or if you don't like that wait for a couple of years after you've bought it, run it down, ship out the old folks, and then develop the land as prime housing and make an absolute fortune - You just can't lose. Come on, get in there now!

## **Family Day Centres**

**Road works** -yes believe it or not Road Works! And you really won't believe what we're going to do before we let you get your hands on this one! We're going to close down all the Road Depots around the county and build one great big brand spanking new Depot out at ????. Then we're going to sell it off. Yes, you heard me, we're going to use loads of council revenue to create a state of the art Highways Depot and then flog it to one of our mates at a knockdown price.

## **Day Centres for Peoples with Disabilities**

## **Libraries**

**County Supplies** - yes County Supplies - One of the most profitable arms of the County Council is up for grabs. Honestly we're not making this up. County Supplies does just what its title says - they supply everything from paperclips to \*\*\*\*\* to all the various departments within the Council. It also supplies to outside organisations. Ummm..... sounds good doesn't it. Well we can tell you that they made a very nice profit indeed last year so obviously we'd like to pass this over to a private company because we can't be bothered to actually reinvest that profit within Council Services.

**Well there you have it - The Great Council Clearance Sale. Sell off the crown jewels for next to nothing because we really can't stand using the word public (unless its a public school like Eton or Harrow).**
